About NPV Tech

Your dedicated IT partner

At NPV Tech, we're more than just an IT solutions provider – we're your dedicated partner in navigating the ever-evolving landscape of technology. Whether you're a small start-up or a large enterprise, we're here to cater to your unique needs with personalized solutions and unwavering support.

With a focus on trust, integrity, and customer satisfaction, we strive to exceed your expectations at every turn. Our expert team is committed to delivering cutting-edge technology that not only meets but exceeds your requirements, ensuring your business stays ahead of the curve. As you explore our range of services, from system integrations to network security and everything in between, know that you're in capable hands. We're here to empower your business, streamline your operations, and drive your success.

So, whether you're embarking on a new project or looking to enhance your existing infrastructure, let NPV Tech be your trusted partner every step of the way. Get in touch with us today, and let's embark on this journey together towards a brighter, more technologically advanced future.

Trust	Integrity	Customer satisfaction

> **We're not just a service provider—we're your long-term growth partner in the ever-evolving digital landscape.**

Who we are

Vision, mission, values

Our vision

To become a global leader in social media marketing by redefining digital excellence. We envision a future where businesses thrive through bold strategies, creative storytelling, and a powerful online presence that transcends borders.

Our mission

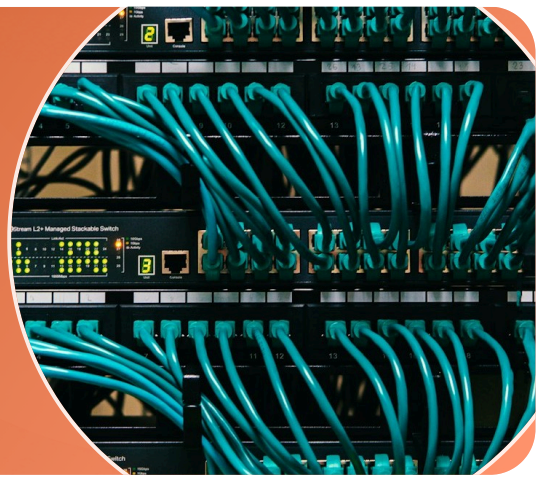
To empower brands worldwide with strategic digital solutions that enhance visibility, build strong connections, and drive measurable growth. We focus on innovation, data-driven insights, and customized strategies that align with each client's unique goals.

Our values

At the heart of NPV Tech lies a commitment to creativity, precision, and partnership. We believe in transparent communication, meaningful collaboration, and delivering real results that help clients succeed in an ever-evolving digital world.

How we work

Challenges · Planning · Transformation · Result



IT services

We are offering all kinds of

IT solutions services

01

Passive Structured Cabling

Structured cabling solutions that build the foundation for fast, reliable, and future-ready networks.

02

Network Operation Center

24/7 proactive monitoring and management to keep your IT infrastructure always operational.

03

Data Center Infrastructure

Secure and scalable data center infrastructure designed for high availability and efficiency.

04

IT Infrastructure

End-to-end IT infrastructure solutions delivering seamless operations and enhanced productivity.

05

CCTV Solutions

Comprehensive CCTV systems ensure real-time surveillance and total site security.

06

Cyber Security Solutions

Advanced cybersecurity frameworks to safeguard your digital assets against evolving threats.

07

Networking Solutions

Tailored, high-speed networking solutions enabling seamless and secure business connectivity.

08

Physical Security Services

End-to-end physical security systems to protect assets, people, and operations from risks.

09

Cloud and Hosting

Scalable, secure cloud solutions to optimize operations, cut costs, and boost flexibility.

10

Turnkey Projects

Fully managed, ready-to-deploy IT infrastructure projects customized to your business needs.

Service details

What we deliver

01

Passive Structured Cabling

Structured cabling solutions that build the foundation for fast, reliable, and future-ready networks.

- End-to-end structured cabling design and installation
- Fiber optic, copper, and hybrid cabling systems
- Neat, labeled, and scalable cable management
- Certified testing and adherence to international standards

Whom we serve We serve IT/ITES, BFSI, Healthcare, Education, Manufacturing, Retail, and Government sectors seeking future-ready connectivity foundations.

02

Network Operation Center

24/7 proactive monitoring and management to keep your IT infrastructure always operational.

- 24×7×365 proactive monitoring and alerts
- Tiered escalation and rapid incident response
- Performance tuning and health checks
- Root cause analysis and detailed reporting

Whom we serve We support enterprises across Manufacturing, IT/ITES, Healthcare, BFSI, Retail, and Public Sectors requiring always-on IT operations.

03

Data Center Infrastructure

Secure and scalable data center infrastructure designed for high availability and efficiency.

- Secure, modular, and scalable designs
- Energy-efficient cooling and power solutions
- Centralized monitoring and smart management
- Compliance with international data center standards

Whom we serve We support enterprises in IT/ITES, BFSI, Healthcare, E-commerce, Manufacturing, and Government sectors seeking high-availability data ecosystems.

04

IT Infrastructure

End-to-end IT infrastructure solutions delivering seamless operations and enhanced productivity.

- End-to-end infrastructure planning and deployment
- High-quality hardware, AV, and IT peripherals
- Seamless integration with long-term scalability
- Enhanced user experience and post-deployment support

Whom we serve We serve organizations of all sizes across IT/ITES, BFSI, Manufacturing, Healthcare, Retail, Education, and Government sectors. From startups to large enterprises, our infrastructure solutions deliver stability, performance, and maximum ROI.

Service details

What we deliver, continued

05

CCTV Solutions

Comprehensive CCTV systems ensure real-time surveillance and total site security.

- High-resolution video surveillance
- Real-time remote monitoring
- Centralized storage and management
- Scalable and integrated security systems

Whom we serve Ideal for Retail, Education, BFSI, Healthcare, Manufacturing, Logistics, and Public Sector institutions.

06

Cyber Security Solutions

Advanced cybersecurity frameworks to safeguard your digital assets against evolving threats.

- Multi-layered security architecture for 360° protection
- Enterprise-grade tools built for resilience and reliability
- Compliance-ready frameworks (ISO, GDPR, HIPAA, etc.)
- 24/7 threat monitoring, detection, and incident response

Whom we serve We serve organizations across industries where cybersecurity is mission-critical— Banking, Finance, Healthcare, IT/ITES, Education, Manufacturing, and Government sectors. Whether you're a mid-size business or a large enterprise, our solutions scale to deliver continuous protection without compromise.

07

Networking Solutions

Tailored, high-speed networking solutions enabling seamless and secure business connectivity.

- Customized network design for seamless integration
- Proven process backed by strong OEM relationships
- End-to-end implementation and support
- Documentation and optimization aligned with business goals

Whom we serve We proudly serve a wide array of industries, including IT/ITES, BFSI, Manufacturing, Healthcare, Education, and Government sectors—both in India and abroad. Our network solutions are trusted by enterprises seeking performance-driven connectivity with zero compromise on security or reliability.

Service details

What we deliver, continued

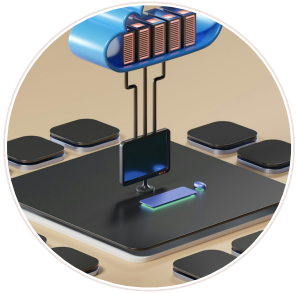
08

Physical Security Services

End-to-end physical security systems to protect assets, people, and operations from risks.

- Customizable solutions based on risk, site size, and business needs
- Integrated systems for access, surveillance, and visitor management
- Balance of technology and manpower for total protection
- Expert installation, planning, and post-deployment support

Whom we serve Our physical security solutions are trusted by corporate offices, industrial facilities, educational campuses, hospitals, retail environments, logistics hubs, and public sector organizations. We help businesses mitigate risks, enhance safety, and maintain compliance with physical security standards.



09

Cloud and Hosting

Scalable, secure cloud solutions to optimize operations, cut costs, and boost flexibility.

- Public, Private & Hybrid Cloud solutions
- Support for AWS, Azure, Google, and Alibaba
- Managed Hosting with data security & compliance
- Business continuity through backup and DR services

Whom we serve Our Cloud & Hosting solutions are ideal for startups, enterprises, SaaS providers, e-commerce platforms, and government bodies seeking to scale securely, improve uptime, and reduce infrastructure burden.

10

Turnkey Projects

Fully managed, ready-to-deploy IT infrastructure projects customized to your business needs.

- Complete project lifecycle support—from planning to execution
- Single-vendor accountability for smooth coordination
- Industry-compliant installations with detailed documentation
- Scalable infrastructure to support future growth

Whom we serve Our turnkey solutions are ideal for corporates, educational institutions, hospitals, retail outlets, and data centers looking to establish or upgrade their infrastructure with minimal disruption and maximum operational efficiency. We help businesses streamline implementation, reduce delays, and optimize costs through consolidated project execution.

Our working process

At NPV Tech, we follow a streamlined approach to ensure efficiency and success in every project.

Driven by innovation, we deliver results that matter!

01

Challenges

Understanding business needs and challenges.

02

Planning

Developing a strategic roadmap for execution.

03

Transformation

Implementing solutions with precision.

04

Result

Ensuring seamless deployment and support.

Why NPV Tech

Why choose us

01 Fast, reliable, and client-first support

02 Tailored digital strategies that deliver real results

03 Scalable solutions for long-term business growth

04 Clear communication and quick turnaround

05 Data-driven approach for smarter decision-making

06 Strong focus on brand visibility and engagement

07 Proven expertise across digital platforms and industries
